Contents

NUMBER 1, JANUARY/FEBRUARY

1 Potentiation of the negative chronotropic and inotropic effects of adenosine by 2-phenylaminoadenosine
S. Chiba and H. Watanabe

7 Antipyrine metabolism in patients with diabetes mellitus
K. V. Murali, C. Adithan, C. H. Shashindran, S. S. Gambhir and S. Chandrasekar

15 Possible mediators of the writhing response induced by acetic acid or phenylbenzoquinone in mice
J. Baird-Lambert and D. D. Jamieson

21 β-Adrenoceptors in the hypertrophied right ventricle of the dog with pulmonary stenosis
M. Sturm and R. R. Taylor

27 Effects of neonatal sympathectomy by 6-hydroxydopamine on blood pressure and intravascular volume in young stroke-prone spontaneously hypertensive rats
W. Rascher, R. Dietz, A. Schömig, U. Voss and F. Gross

35 Effects of α- and β-adrenoceptor agonists and a phosphodiesterase inhibitor (ICI 63 197) on cyclic AMP and GMP levels in bovine splenic nerve
Z. Merican and M. W. Nott

45 Is Fleming's lysozyme an analgesic agent? Experiments on mice
C. Bianchi

53 The effect of phentolamine on active and inactive renin release in human renovascular hypertension
R. Pedrinelli, F. Arzilli, P. Sassano and A. Salvetti

63 Salt and water intake and sodium and potassium excretion in spontaneously hypertensive rats
C. N. May and B. J. Parsons

71 The effect of long term treatment with a β-adrenoceptor blocker, *l*-propranolol, on the distribution of cardiac output of the the late gestational guinea-pig
L. Bjellin and L. Mårtensson

77 KCl contractions in the rat intact and bisected vas deferens: contribution of endogenous noradrenaline release
D. W. P. Hay and R. M. Wadsworth

Review Article

87 Metabolic activation as a basis for organ-selective toxicity
M. R. Boyd, J. J. Grygiel and R. F. Minchin

NUMBER 2, MARCH/APRIL

101 Dependence of β-adrenergic responsiveness on thyroid state of male rats
R. M. Threatte, C. C. Barney, S. P. Baker and M. J. Fregly

115 Cerebrovascular and metabolic effects of bradykinin, ATP and hypercapnia in the goat
W. E. Hoffman, D. J. Miletich, P. H. Volkman and R. F. Albrecht

125 Modification by GABA-ergic agents and clonidine of morphine-induced convulsions and toxicity in rats
S. K. Kulkarni and A. Nagrath

131 A comparison of the activity of the angiotensin converting enzyme inhibitors SQ 14 225, SA 446 and MK 421
Y. Takata, R. Di Nicolantonio, F. A. O. Mendelsohn, J. S. Hutchinson and A. E. Doyle

147 Influence of extra-intestinal inflammation on the *in vitro* absorption of ^{14}C-glucose and the effects of anti-inflammatory drugs in the jejunum of rats
S. Somasundaram, J. Sadique and A. Subramoniam

153 The mechanism of polyuria in rats pretreated with lithium studies by *in vitro* microperfusion
C. Ray, T. Morgan and S. Carney

161 A preliminary study on pain perception and tobacco smoking
J. Milgrom-Friedman, R. Penman and R. Meares

Short Communications

171 Effect of indomethacin on responses of sheep isolated coronary artery to arachidonic acid
E. J. Cornish, R. G. Goldie, E. V. Krstew and R. C. Miller

177 Effects of a non-vasoconstrictor dose of phenylephrine on prostaglandin E_2 and renin release in anaesthetized dogs
H. Hisa and S. Satoh

181 Proceedings of the Australasian Society of Clinical and Experimental Pharmacologists, May 1982, Melbourne

NUMBER 3, MAY/JUNE

211 Graded effects of saralasin on prostaglandin E, plasma renin activity and renal blood flow in anaesthetized dogs
P. C. Wong and B. G. Zimmerman

219 Haemodynamic effects of prenalterol in acute myocardial ischaemia in open chest pigs
A. Branzi, G. Binetti, S. Specchia, C. Magelli, R. Zannoli and B. Magnani

Short Communication

229 Blood pressure and its relationship to low levels of alcohol consumption
K. M. Cooke, G. W. Frost and G. S. Stokes

235 **Book Review**

Short Communications

239 Reversal of renovascular hypertension
J. D. Swales, R. F., Bing, G. I. Russell and H. Thurston

253 Attenuation of the hypertensive effect of captopril by the opioid receptor antagonist naloxone
J. A. Millar, A. Sturani, P. C. Rubin, C. Lawrie and J. L. Reid

261 Inhibition of guinea-pig renal [Na + K]-ATPase by normotensive human plasma: effects of a high sodium diet
R. M. Wellard, J. B. Myers, J. A. Danks, T. O. Morgan and W. R. Adam

265 Vascular smooth muscle serotonin and α-adrenoceptors
J. F. Marwood and G. S. Stokes

269 Failure of captopril to lower blood pressure in spontaneously hypertensive rats offered water and saline to drink
R. DiNicolantonio

279 Erythrocyte cation fluxes in normal and hypertensive human subjects
G. S. Stokes, J. C. Monaghan and A. T. Middleton

283 Attenuation by captopril of pressor responses to peripheral sympathetic nerve stimulation in rats is abolished after bilateral nephrectomy and during mineralocorticoid hypertension
A. L. A. Boura, S-C. Hui, E. J. N. Ishac, M. P. Rechtman and W. A. W. Walters

289 Endogenous vasopressin modulates the baroreflex sensitivity in rats
Y. Imai, P. L. Nolan and C. I. Johnston

293 Synthesis of mouse renin as a 2-5-33-5 kilodalton pre-pro-two-chain molecule and use of its cDNA to identify the human gene
B. F. Morris, D. F. Catanzaro, J. J. Mullins, J. Hardman and J. Shine

299 Cardiovascular effects of stimulation of neurones within the 'defence area' of the hypothalamus and midbrain of the rabbit
E. Tan and R. A. L. Dampney

305 Intense vasoconstriction and bradycardia evoked by stimulation of neurones within the midbrain ventral tegmentum of the rabbit
E. Tan, A. K. Goodchild and R. A. L. Dampney

311 Evidence for a functional central dopaminergic insufficiency in the spontaneously hypertensive rat
J. S. Hutchinson, R. DiNicolantonio, M. Veroni and M. Cleverdon

315 The quantitation of arterial elasticity from Doppler flow measurements
P. Kenny, F. Janod, G. R. Bellamy, S. Mann and S. N. Hunyor

319 The distribution of arteriosclerosis along the arterioles of DOCA hypertensive rats
M. B. Walker and G. W. Boyd

325 Demonstration of specific receptors for adenosine in guinea-pig myocardium
E. Leung, C. I. Johnston and E. A. Woodcock

331 The effect of ketanserin in essential hypertension
A. Anderson, T. Morgan and R. Dumpys

335 Prevention of structural arteriolar changes in DOCA hypertension with hydrallazine
J. H. Vial, A. C. Young and G. W. Boyd

341 Peripheral adrenoceptors after sino-aortic denervation
M. J. Morris and E. Woodcock

345 Capillary permeability in normal and hypertensive human pregnancy
S. N. Hunyor, P. T. McEniery, K. A. Roberts, G. R. Bellamy, D. J. Roffe, E. D. M. Gallery, A. Z. Gyory and E. S. Boyce

351 Differential blood pressure and metabolic effects of 9α-fluorocortisol in man
J. A. Whitworth, D. Saines and R. Thatcher

355 Differences in arachidonic acid metabolism and effects of aspirin between one- and two-kidney Goldblatt hypertensive rats
G. J. Dusting, T. Drysdale, M. Veroni and A. E. Doyle

361 Effect of sodium intake on intraerythrocyte sodium concentration in normotensive subjects and patients with untreated mild hypertension
J. B. Myers, T. O. Morgan and K. Edwards

365 The influence of a high K intake on the hypertensive effect of ACTH and DOC in sheep
E. H. Mills, J. P. Coghlan, D. A. Denton, B. A. Scoggins, C. D. Spence and J. A. Whitworth

369 Vasoactivity generated from platelets by immune complexes in pre-eclampsia
R. L. Medcalf, R. J. P. Kuhn, V. Iwanov, J. D. Mathews and R. F. W. Moulds

375 Pressor effect of moderate alcohol consumption in man: a proposed mechanism
M. Ireland, R. Vandongen, L. Davidson, L. Beilin and I. Rouse

NUMBER 4, JULY/AUGUST

381 A study of stimulation-evoked activation of α_2-adrenoceptors in the rat isolated vas deferens
J. N. Pennefather

395 Quantitative structure-activity relationships of imidazolidine derivatives related to clonidine at peripheral α-adrenoceptors
I. C. Medgett and M. W. McCulloch

Short Communications

411 Pharmacokinetics of an osmotically controlled delivery indomethacin preparation in normal volunteers
J. V. Bertouch, S. Maycock, B. Harrington and P. M. Brooks

415 Influence of season and anaesthetic on cutaneous vascular permeability responses to histamine, serotonin and mast cell-releasing agents in rats
L. A. Chahl

421 Leakage of catecholamines from rabbit cerebrospinal fluid following intracerebroventricular injection
C. Maccarrone, E. Malta and C. Raper

427 Proceedings of the Australian Society for Medical Research, December 1982, Canberra

NUMBER 5, SEPTEMBER/OCTOBER

497 Effects of imipramine on the orthostatic changes in blood pressure, heart rate and plasma catecholamines
J. R. Nielson, T. Johansen, A. Arentoft and L. F. Gram

505 Verapamil-induced contracture in an excised, blood-perfused skeletal muscle preparation from the dog
T. Sato, K. Suzuki, T. Aoyama and H. Ono

511 Antagonism by manganese of isoprenaline dilatation of the guinea-pig isolated trachea
D. D. Jamieson, R. J. Quinn and A. le Coutier

521 Cerebral mechanisms influencing renal sodium excretion in dehydrated sheep
M. J. McKinley, D. A. Denton, H. W. Fryday and R. S. Weisinger

527 Inhibition of amino acid transmitter release from rat brain slices by phenytoin and related anticonvulsants
J. H. Skerritt and G. A. R. Johnston

535 Presynaptic inhibition by serotonin of cardiac sympathetic transmission in dogs
T. Kimura and S. Satoh

543 Differentiation of noradrenergic and dopaminergic nerves in the rat kidney: evidence against significant dopaminergic innervation
B. P. McGrath, A. E. Lim, K. Bode, G. L. Willis and G. C. Smith

555 Influence of FLA-63 on pentobarbitone sleep in chicks and rats
C. Wambebe and G. Osuide

567 Responses of human arterial muscle to stable vasoactive substances released from human platelets by collagen and heat aggregated IgG
R. L. Medcalf, V. Iwanov and R. F. W. Moulds

577 Adrenergic factors involved in the control of crypt cell proliferation in jejunum and descending colon of mouse
M. F. G. Kennedy, P. J. M. Tutton and D. H. Barkla

587 The effect of the calcium ion antagonist 8-(*N*,*N*-diethylamino)-octyl-3,4,5-trimethoxybenzoate on malignant hyperpyrexia-susceptible porcine skeletal muscle
J. S. Sullivan, G. J. Galloway and M. A. Denborough

595 Dual modes of action for disodium cromoglycate in inhibition of antigen-induced contractions of guinea-pig isolated airways smooth muscle
A. G. Stewart and M. R. Fennessy

Short Communications

605 Trifluoperazine antagonizes inhibition of renin release by angiotensin II
U. Schwertschlag and E. Hackenthal

609 Evaluation of the CO_2 rebreathing method for the non-invasive measurement of resting cardiac output in man
M. Hargreaves and G. Jennings

615 Urinary excretion of glycosaminoglycans, hydroxyproline and hydroxylysine in rabbits after excessive ingestion of fluoride
M. Jha, J. Koacher and A. K. Susheela

619 **Book Reviews**

NUMBER 6, NOVEMBER/DECEMBER

621 Cardiovascular responses elicited by microinjection of cholinergic agents into nucleus dorsalis raphe in cats
A. K. Saxena, K. K. Pant, A. K. Saksena, K. K. Tangri, S. Vrat and K. P. Bhargava

629 Muscarinic receptor inhibition and other effects of pancuronium in the rabbit ear artery preparation
E. Leung and F. Mitchelson

641 Proceedings of the Australasian Society of Clinical and Experimental Pharmacologists, December 1982, Sydney

731 **Author index to Volume 10**
